

CORAL CONSULTING SERVICE

INVESTMENT PROJECT PROFILE

Project title	Construction of the clay exploitation facility in the area of Kalina
Sector	Natural resources
Location	Kalina, Territory of Berkovici municipality, RS
Project status	Prepared feasibility study
Project description	<p>On the outskirts of Berkovici, in the Kalina region, large clay reserves have been discovered that occupy an area of 20 km². Based on the detailed geological research that covers 30 ha, the experts have established that the clay from Kalina is of excellent quality and that it is suitable for the production of all types of products from bricks to ceramics.</p> <p>The realization of the project envisages two phases: First phase - study and draft of project documentation Second phase - construction of the facility for clay exploitation at Kalina</p> <p>The previous study showed that the market for this high-quality clay brick would be ensured.</p>
Estimated total investment cost	1.02 million EUR
