

INVESTMENT PROJECT PROFILE

Project title	Development of the Dražica Cove
Location	City of Krk
Project leader	City of Krk
Ownership	City of Krk
Developed documents	Physical planning documents: • the project is in compliance with the physical planning documents Project documentation: • design project
Project description	<p>The bathing area Dražica is one of the oldest developed areas at the beach, dating from the beginnings of the tourist era at the City of Krk. Improvements to the ambience and recreation standards of the coastal area at the Dražica cove by means of extending high-quality beach area enables the amplification of tourist offer for visitors, which will have an indirect impact on increased profits for local shareholders.</p> <p>The project involves the following construction activities: Floor surface reconstruction at the plateaus – terraces by adding new concrete layers and articulating the pedestrian path next to the pebble beach, as well as the reconstruction of the pedestrian path to be connected with the main promenade.</p>
Estimated value of the project	700.000 EUR
Realization model	Open negotiation options
