

## INVESTMENT PROJECT PROFILE

	
<b>Project title</b>	<b>Fruit and vegetable processing and packaging</b>
<b>Sector</b>	Agriculture - Fruit and vegetables
<b>Location</b>	Laktasi Municipality
<b>Location description</b>	The Municipality of Laktasi occupies the northwestern part of Republika Srpska, the area between the cities of Banja Luka and Gradiška, along the highway Banja Luka - Gradiška-Okučani (exit to the highway Belgrade-Zagreb), and the international airport Banja Luka is 3 km away.
<b>Company description</b>	The municipality of Laktasi has a long tradition of fruit and vegetable production. <b>Project background</b> - Significant number of producers is applying modern technology and generating European yields. The prevailing crops in the field of vegetable farming are potato, onion, cabbage, pepper, tomato, melon, watermelon and cucumber, and those mainly produced in the field of fruit are apples, plums and pears.
<b>Project status</b>	Business idea
<b>Project description</b>	The fruit and vegetable processing and packaging project is intended to establish a fruit and vegetable purchase and processing center. The municipality is ready to make a location (in Aleksandrovac business zone) available to the investor to build and put into function a facility for fruit and vegetable processing and packaging. The purchase and processing center could procure raw materials from the producers located in the territories of the municipalities of Laktasi, Srbac, Gradiska and Kozarska Dubica. Those municipalities have a long tradition of production of agricultural products, a quality raw material is produced and producers have mastered modern production technology. In addition, it is possible to establish cooperative relations between the investor and agricultural producers, i.e. the investor to provide agricultural producers with intermediate goods and advisory services to be calculated into the purchase price. That way the investor can keep all processes under control, from planting of crops to purchase. This type of operation makes the investor certain that they would deliver to their buyers the goods of certain typ
<b>Estimated total investment cost</b>	<b>App. 2 500 000 EUR</b>
