

INVESTMENT PROJECT PROFILE

Project title	Production of indigenous grains and oilseeds, Bosanski Petrovac	
Sector	Agriculture sector	
Location	Vrtoce Village, Bosanski Petrovac Municipality	
Location description	Bosanski Petrovac is located in north-western part of Bosnia and Herzegovina, along the main road Sarajevo - Bihac, near the Croatian border.	
Company description	Project proposer has a family tradition and many years of successful experience in production of indigenous crops and oilseeds: wheat, rye, oats, barley, triticale, buckwheat, millet, flax. It has 70 hectares of planted land with a possibility to plant another 100 hectares in cooperation with interested neighbouring farmers.	
Project status	Project concept	
Project description	The aim of this project is partnership with a potential investor. The local partner, or partners, will organize production of indigenous crops and oilseeds in unpolluted area without artificial fertilizers, herbicides and pesticides, while foreign partner would be responsible for providing the market. In accordance with the development of project it would be possible to obtain certification by renowned European certification bodies and have the rights to sell the products as organic. The next phase of project development would be organization of mini processing capacities with the aim of getting products into the higher stages of processing for their export and use in health food stores in BiH.	
Estimated total investment cost	2.000.000 EUR	
Investment by local partner	Value	Description
	1.000.000 EUR	Available land for processing, indigenous seeds, agricultural machinery, facilities for storage, experience and expertise
Investment from foreign partner	Value	Description
	1.000.000 EUR	Phase I: Market and certification Phase II: Processing and packaging
Form of cooperation with foreign partner	Joint venture
