Project description	Extension works and increasing the capacity of the Port of Opatija will allow larger boats and yachts to dock, resulting in the further development of nautical tourism in the Kvarner region. Reconstruction of the existing port, construction of the breakwater and additional jetties for the berthing of boats, in addition to works on the access to the port. The protected port sea area will be extended and the cruise ships will be able to dock.
Estimated value of the project	After the development of design documents
Realization model	Concession awarded by the County Port Authority of Opatija – Lovran – Mošćenička Draga
