

### INVESTMENT PROJECT PROFILE

<b>Project title</b>	<b>Construction of the production capacity for collecting and processing of used tires</b>	
<b>Sector</b>	Waste Management	
<b>Location</b>	Bihac Municipality	
<b>Location description</b>	Used tires will be collected throughout the area of north-eastern BiH and will be transported to the warehouse of the company ROT- R ltd. placed along the regional road Bihac-Gata, at the land plot which is a property of the company owner.	
<b>Company description</b>	ROT-R ltd Bihac company has long experience in collecting of old tires and currently has 50 000 old tires in stock. The company is the only operator with permission for the collection of old tires in Una- Sana Canton.	
<b>Project status</b>	In progress	
<b>Project description</b>	This project proposes the construction of the production capacity for collecting and processing of used tires. It is necessary to build the production hall of 4000 m <sup>2</sup> on the property of the company, and to purchase necessary equipment for collecting (truck, a forklift machine, loader), pressing, and packing –putting the final product in pellets. Packed pressed waste would then be transported to other companies responsible for further processing of this type of waste. The production plant for production of used tires would create at least 20 new jobs, since the significant demand for the press and pellet waste is present in this region.
