

INVESTMENT PROJECT PROFILE

Project title	Activation of quarry for limestone exploitation in Radonjici (Travnik)
Sector	Construction sector
Location	Travnik Municipality
Location description	<p>Radonjici quarry is located in Central Bosnia, north-east from Travnik city, in immediate proximity to cities Novi Travnik and Vitez and 90km from the capital Sarajevo. Highway connecting Sarajevo and Banja Luka is only 9km away.</p> <p>The quarry itself is located at the altitude of 1060m to 1296m, 4.5 km away from the nearest highway.</p>
Company description	<p>Gradevinar ltd is a construction company that was founded in 1970. Its operations go from building constructions, civil engineering, installations to construction materials production and machinery services.</p> <p>The company has been in dolomite aggregate exploitation business for more than 10 years already and owns all required expertise. The exploitation is taking place on the quarry in Buč ići (near Novi Travnik). The Buč ići quarry has concession contract active until September 27th, 2027.</p>
Project status	Project is at its initial phase
Project description	<p>Project is at its initial phase where administration work has been finalized as well as expert research:</p> <p>Administration</p> <ul style="list-style-type: none"> • Concession contract for limestone exploitation (30 years) signed • Ownership rights and relations regulated • Mandatory technical documentation about performed quarry research approved • All documentation required to start with mining/exploitation approved • Authorized by authorities

	<p>Expert research included</p> <ul style="list-style-type: none"> • Project documentation • Geodetic and geological activities • Mining activities • Laboratory analysis <p>To start with project i.e., the exploitation and production of limestone an investment to machinery and equipment is required and would include:</p> <ul style="list-style-type: none"> • Loading truck (118kW) and Loading truck (110kW) • Dredger, Bulldozer, Trucks • Drill – Compressor (mobile) • Rig-jacker (drilling system) • Aggregate (120kW) • Separator with granulating system <p>In addition to the above equipment and machinery, access road of total 4.5km must be built. Limestone has a wide use in several industries including (but not limited to) construction industry. Some examples of limestone application in construction industry include its use in final layer of asphalt, decorative walls, high quality concrete used in construction of bridges and rail viaducts, in sugar industry etc. Quarries of limestone of the similar quality and characteristics to the one found in Radonjici are rare which provides wide export opportunities to the region and wider.</p>	
Estimated total investment cost	2 000 000 EUR	
Inputs required by local partner	Value	Description
	500 000 EUR	<ul style="list-style-type: none"> • 50 000 EUR - Initial expert studies, research, documentation, permissions and authorization • 200 000 EUR - Trucks • 220 000 EUR - Access road investment (partial) • 30 000 EUR - Transport and installation (assembly); other related costs
Inputs required from foreign partner	Value	Description
	1 500 000 EUR	<ul style="list-style-type: none"> • 180 000 EUR - Loading Truck 118 kW • 100 000 EUR - Loading Truck 110 kW • 125 000 EUR - Dredger • 350 000 EUR - Bulldozer • 125 000 EUR - Drilling Rigs • 35 000 EUR - Portable Air compressor • 50 000 EUR - Aggregate • 255 000 EUR - Separator (w. granulator) • 280 000 EUR - Access road investment (partial)
Form of cooperation with foreign partner	Financial	Technical
	Negotiable (Loan, Participation in profit, other)	Negotiable
